

CPR/First Aid Training Made Easy

This year we will be presenting our CPR/First Aid for Boaters training in the American Heart Association “Blended Learning” format. The “lecture” portion will take place online at your convenience. Once you have completed the online portion you will be able to print out a completion certificate which you will bring to class for Skills Review and Testing. Following the Skills, we will begin the new “Special Medical Concerns and Emergencies for Boaters” seminar.

The Skills Review and Testing will begin at 12:30 on Friday October 26 at the DoubleTree Hotel as part of the District 5 Fall Education Conference.

- We also will be offering the “Special Medical Concerns and Emergencies for Boaters” as a standalone seminar. This Seminar will begin at 14:30.

Here are the links to learn more about the Blended CPR/First Aid Course and Seminar and to register for the course or seminar:
