MTG/ACTIVITIES SCHEDULE	11

## ***Delhigh Cleans Up at Beltsville***

Delhigh kicked off *Safe Boating Week* at Beltsville State Park in Carbon County, PA with muscle and enthusiasm as 13 members met to conduct an in-water trash clean-up and Vessel Safety Checks. While the weather produced a slight drizzle on and off throughout the morning, it did not slow down the efforts of all who attended. Six boats collected trash surrounding the lake's shores, and 15 VSC's were completed at the ramp throughout the morning.

Volunteers included one of our newest members attending her first Delhigh activity, along with several long term members armed with years of experience and knowledge of Delhigh activities. All came ready to work...and have fun. P/C Bob Rendish coordinated the event, working with the State Agencies for their permission to work the lake, and also coordinated all the volunteers who attended.

"I think we collected more trash than last year," commented Cdr Jim Ziegenfuss during the picnic that ended the day. "And to conduct 15 VSC's was very significant, considering the weather and early lake activity." Items collected along the shore included two tires, a traffic sign attached to a 4X4 post, buckets, a full box of fishing lures, bags, cups, bottles, and tin cans. Much to the dismay of the trash collectors, no lost treasures were discovered.

Thanks to all the members who helped out and attended this event. Water clean-up volunteers, and those bringing boats, included: Jason Gaydos, Randy and Jeanette Meisner, Don and Marilyn Ludwig, Jim and Minna Ziegenfuss, Bob Rendish, Mark Rendish, and Scott and Dorothy Reifinger. Mike Lebeduik and Dick Garnjost manned the Delhigh Command Post and ramp, and conducted the Vessel Safety Checks.

# 2009 BELTSVILLE CLEANUP

## Water Safety Festival At Blue Marsh Lake

**When:** Sunday June 14, 2009

**Time:** 12-5 p.m.

**Where:** Dry Brooks Day Use Area, Next To The Swim Beach

The United States Corps of Engineers, the Government Agency managing the Blue Marsh Water System, has invited Delhigh Power Squadron to participate in the Water Safety Festival at Blue Marsh Lake on June 14, 2009. This community focused effort will be an all day event at the Lake, and will include exhibitions both on-water as well as on-land. Exhibitors will include search and rescue dog teams; helicopter rescue agencies; water rescue teams; dive teams; canoe and kayak clubs; Peters Marine; and The Pa Fish and Boat Commission, as well as the Coast Guard Auxiliary and Delhigh.

Delhigh will secure and set up the D-5 exhibition trailer for this event, and feature the D-5 mascot "**Seavester**", to promote USPS and Delhigh. This will be the first time Delhigh has requested and used the trailer and **Seavester** for any public relations and training event. Joe Stemrich will be traveling to Maryland to tow the trailer to Blue Marsh, and will set it up for the day. Jeanette Meisner, ASEO for the Squadron and chairperson for this event, is coordinating all the Volunteer efforts for Delhigh.

The day long event will be informative and fun. Jeanette, and the entire Delhigh Bridge, would like to invite all members to join the Squadron for the day, and bring your families and friends. If you'd like to participate and help Delhigh for a couple of hours at the event, please call Jeanette at (610) 262-4711.

**Directions:** From U.S. 222, take PA Route 183 North to Palisades Drive, turn left, and take first right into the Dry Brooks Day Use Area

**U.S. Army Corps  
of Engineers**  
Philadelphia District

## REMINDER

### 2009 Delhigh Rendezvous 26 -27-28 June

**Place:** Herrington Harbour North

Tracey's Landing, MD 20779  
Lat.38. 45.' 86" Long. 76.32.'80  
Dockmaster 410-867-4343 or  
800-297-1930

Please call the Dockmaster to reserve your slip. Mention Delhigh.

Deadline is 12 June 2009

Dock fees- \$1.50/ft Electric-  
\$5.00/30amp, \$10.00/twin 30,50 amp

**Amenities:** Swimming pool, spa, fitness center, laundry, grills, picnic tables, bikes, kayaks, West Marine store, Calypso Bay Dock Bar and Restaurant and internet access. Ride the local Trolley for 25cents to explore the area. Enjoy live entertainment at Calypso's both nights.

### Planned Activities

**Friday- 1800- Cocktails, and shared hors D'oeuvres on the dock.**

**Dinner at Calypso Bay for burgers, dogs, coleslaw, potato salad, and dessert.**

**Saturday-1800- Cocktails and shared hors D'oeuvres on the dock.**

**1930- Dinner at Calypso Bay – It's a Luau- Tortilla chips, Salsa, fresh fruit, Caribbean salad, Hawaiian chicken, Blackened Mahi Mahi, Pork BBQ, Rice pilaf, and dessert.**

**Sunday- 1000- Shared breakfast on the docks**

Mark your calendar, prepare your crew, and plot a course to be part of the 2009 Summer Rendezvous. This will be another Western shore adventure. Hope to see you there.

See April/May Issue of *Delhighlights* for reservation form.

## Summer Trailer Boat Rendezvous

Senator Farley State Park Marina at  
Trump Marina and Casino

10 -12 July, 2009

**Invitees:** Delhigh, Absecon, Del-  
sea, Kingsway Power Squadrons

### Departure:

By Sea from the North: Manasquan  
River Club, Brick, New Jersey 0900  
ish Contact Doug McKenzie at (cell)  
610-217-7164 or email  
dougmckenzie@rcn.com

From The South: TE Stone Harbor  
89<sup>th</sup> Street Public Launch Contact Joe  
Stemrich at (Cell) 610-216-6301 or  
email Joesparks6659@aol.com

By Trailer: Take the Atlantic City Ex-  
pressway into Atlantic City and follow  
signs to Trump Marina and Casino.

**Event:** We will have dinner to-  
gether at Back Bay Cove Ale House  
½ hour by sea 2 1/2hours by land on  
Saturday Night at 1830. I will check  
the show schedules in AC for ticket  
availability. Other activities to be an-  
nounced.

**Cost:** Boat slips are \$3 per foot if we  
get 10 boats; \$4.50 per foot under 10  
boats.

Hotel rooms at Trump Marina are  
available contact them directly or use  
the internet to get discounted rates

**RSVP:** Please let us know if you  
will attend by 1 July 2009

## An Outing With The

Our squadron will be holding the September Member-  
ship Meeting at Coca Cola Park in Allentown, PA to  
watch the Lehigh Valley Ironpigs play Syracuse during  
the final week of the AAA baseball season.

Plan to join the squadron for this unique and exciting  
"family" outing.

Try to make your commitments early. We will need to  
give the Ironpigs a definite count by 30 June. ALL  
money must be received by Jim Ziegenfuss NO LATER  
THAN 27 July.

**See April/May Delhighlights for more details.**

### **Ironpigs Baseball Game 2 September 2009 Reservation Form**

## The Commander's Deck

*Cdr. Jim Ziegenfuss, JN*

As I've gotten around to various meetings and events with our Squadron's members, conversations this time of year invariably go to Spring Commissioning, and all the exciting things that need to be done to get our boats ready for the year. Whether we're prepping our boats in the backyard, calling the marina to see when our pride and joy might be launched, or eyeing up the river or lake to determine when the water is just right, it's an exciting time to own a boat. Things we plan for all winter can now get done: Install new electronics; service the engines; get out the cookware, cushions, lines, and PFD's; rebuild the trailer brakes; and wax or paint the bottom. Whether we're cleaning, fixing, rebuilding, or replacing components, or simply planning for our vacations, we love it. It's exciting. It's energizing. And it gives us a chance to dream about the trips and events that lie ahead.

And on top of all that fun stuff, we have Delhigh. A chance to contribute to safe boating, take classes to hone our skills, support the community through all kinds of land and water events, and participate as members of a national organization. Through Delhigh, we make new friends, go places we might not otherwise have tried, and give our families and friends memories that will last a lifetime.

So as you work on your boats and think about all the things you need to get done to start your summer boating adventures, think about Delhigh too. The Bridge, in conjunction with Delhigh's chair people, has set an ambitious schedule for classes and member activities in '09. They all sound like fun events, and we hope each member will select and join in at least one or two activities. Look at the calendar, and reserve a day or weekend. Whether you're our newest member, or one that has supported Delhigh for years, your Squadron will be even stronger with greater participation. *TAKE SOME TIME IN '09* and join in the fellowship and fun that your membership entitles you to.

And as always, if you have a question on a Squadron event or activity, please call or e-mail me. I'd be happy to talk about everything we're doing, and discuss how Delhigh can support your needs too. Hope to see you all in 2009.

## SEO REPORT Bob Hannabery, AP

Fourteen students completed the Spring Boating Course on April 27 at Peters Marine. Congratulations to Michael Margron; Matt, Sarah and William Kuehner; Caroline and David Trimble; Donald Dieter; Kathleen Trimble; Randy Tigar; Frank Bucco; Dennis Harbon; Kim Karaman; Marilyn Ludwig and William Bucco. This course was taught using the new *USPS America's Boating Course, 3<sup>rd</sup> Edition*. Thanks to Ed Muschlitz and all of the instructors who spent the extra time necessary to learn this new curriculum and make this course a success. A special thanks goes to Peters Marine for allowing us to use their excellent classroom facilities to present our courses.

ASEO Jeanette Meisner reports that Delhigh has presented six of the USPS University Seminars this spring at Peters Marine. The seminars presented were *Using VHF/DSC Radio* taught by Rich Norris, *Onboard Weather Forecasting* taught by Charlie Rush, *Boat Handling Under Power* taught by Don Ludwig, *Using GPS* taught by Bob Hannabery, *Trailer* taught by Bob Rendish and Randy Meisner and *Anchoring* taught by Bob Hannabery. Thanks to Jeanette and all of the instructors for their work in presenting these great public seminars, and again to Peters for allowing us to use their classroom.

Rich Norris reports that Delhigh presented the *Seamanship* course this spring. Twelve Delhigh members took the course, including Dick Hoffeld, Kim Karaman, Kathy McKenzie, Bruce Nodine, Cyrus Nowroozani, Kathy Nowroozani, Ken Pohlidal, Keith Knoblach, Camilla Stemrich, Joe Stemrich Jr., Joe Stemrich Sr. and John Unger. Although we're still waiting for the exam results from National, I'm sure we'll have good news to report in the next issue! Thanks to Rich and all of the instructors for presenting this course to our members.

The Delhigh Education Department will meet on Wednesday 10 June 2009 at Holy Trinity Lutheran Church, 514 3<sup>rd</sup> Avenue, Bethlehem, PA 18018, beginning at 1900 to plan the course offerings for the 2009-2010 education year. All course chairpersons are requested to attend. Please let me know what courses you would like to take next year so we can plan accordingly.

Have a great summer!

DELHIGH BRIDGE AT WORK

**ASSISTANT ADMINISTRATIVE  
OFFICER'S REPORT  
Robert Rendish, P**

I'm writing this article the day after the 2009 Delhigh Power Squadrons' Lake Beltsville Clean-up & Vessel Safety Checks, prior to Safe Boating Week. The weather didn't seem promising Saturday morning, but the fog burned off the lake by the time we launched our boats. It wasn't a sunny bright day, but it was a successful one. We had thirteen people participate in our clean-up, and it appeared we collected more trash, tires, signs, and garbage than last year. At least the pile looked bigger.

And this year, we also performed courtesy Vessel Safety Checks to any boater who was interested. Despite the cloudy, gloomy weather we had all day, with the threat of rain looming in the afternoon, our vessel safety examiners performed 15 Vessel Safety Checks. I would like to thank P/C Mike Lebeduik, and Lt Dick Garnjost for performing as many VSCs as they did. We didn't think it would be as active at the lake considering the weather, but we were pleasantly surprised.

I would like to thank the staff and volunteers of the Department of Conservation & Natural Resources for their cooperation, and providing trash bags and work gloves for all those who participated. Finally, thank you to all the members and friends of the squadron who made this event a success in helping to clean-up a fine recreational area, and helping to preserve a small piece our environment. Special thanks goes to my brother Mark for his help, and our Commander Jim Ziegenfuss and his wife Minna for their help and support leading up to, and during this event.

Thank You!

Ahoy Mates from Jason Gaydos,

First, it's my pleasure to be your new Safety Officer for 2009. Spring is here and it's time to get our boats out of hibernation (if you haven't already). With spring fever on our minds and summer approaching, it can be easy to miss a few things in anticipation of that first season's launch, so I gathered a fantastic check list for us all, highlighting what you can go over to ensure that your first trip out will be enjoyable. It is by no means a complete list, but one that may save you or someone else.

I can't cover everything in terms of a checklist, since there is such a variety of boats, trailers, waterways, etc. My intent is to provide you with a solid starting point to help make your start of the boating season a positive one. Please feel free to adjust this list to your boat and make extra copies to have each season!

**Boat Checklist**

○ **Documents:** review your license, registration, insurance, etc. Make sure you have current trailer tags, and that little sticker, if applicable. This is best kept in a watertight bag or container.

○ **Life Jackets:** always check your Personal Flotation Devices (PFDs) to ensure that they are in good condition and that there are enough for everyone. It is also important to ensure that each individual has the correct size PFD for their body weight. There should be no rips or missing parts. The PFDs should be in good condition. Life jackets are critical, especially in the more northern locations, since the water can often be deadly cold in the spring. Properly sized and wearable life jackets that are in good condition must be on board for every passenger, especially children.

○ **Fire Extinguisher:** ensure any fire extinguishers you have on board are fully charged and mounted in the proper place and are the correct class of extinguisher for your vessel. Check your safety equipment, especially flares and fire extinguishers for expiration dates and pressure, if appropriate. Give extinguishers a bit of a shake to keep the powder loose.

○ **Charts and Maps:** If you utilize them, examine your charts and maps - update or replace as necessary. For the electronic folks, make sure your software is current.

○ **Plugs:** make sure that any/all drain/stern plugs are in place tightly and that any rubber seals or gaskets are in good condition and haven't cracked or dried out over the storage season.

○ **Hoses and Clamps:** have a look at all hoses and clamps and replace as necessary - a quick inspection is worthwhile, especially on larger motors.

○ **Propellers:** always inspect your propellers for dings, pitting, cracks and distortion. Damaged propellers can cause unwanted vibration and can cause damage to your drive train. Make sure any connectors, such as cotter pins, are secure and grip the prop to see how loose it is. It is not uncommon to have to replace bearings when loose shafts are found.

○ **Inboards:** examine the rudderstock to ensure it has not been bent or compromised in any way.

○ **Hulls:** this may be an obvious one; however, hull examination is often overlooked. Look for blisters, distortions and cracks, compromised rivets.

○ **Water Intake Strainer:** make sure your strainer is free from obstruction, is secure and is free from corrosion.

○ **Large Inboards:** check the engine shaft and rudder stuffing boxes for looseness before and after you launch. Also ensure your through-hulls have no leaks.

○ **Outboards and Outdrives:** ensure with a visual inspection that your outdrive bellows are not cracked, dried or deteriorated. Pay careful attention to the folds and replace any that are questionable.

○ **Fluid Levels:** check all of your fluid levels, from engine oil to power steering and power trim reservoirs. Also don't forget to replace any worn out zincs.

○ **Cables:** a simple inspection of the outer jacket of your control cables will let you know if you have to take immediate action. Make sure there are no cracks or swells and look for corrosion. This is an area where you want to pay special attention, especially if you see signs of deterioration.

○ **Fuel Lines:** inspect fuel lines as best you can. The crew at fishresource.com found a loose line a few years back that could have been disastrous. Check very closely every spring, including fill and vent hoses. Look specifically for softness, brittleness or cracking. We found a leak because of a bad clamp. Remember, you are dealing with combustible fluids!

○ **Fuel Tanks:** check your tanks annually, as well as pumps and filters. Replace your filters every spring. Hopefully you used a fuel stabilizer.

○ **Hoses:** cooling hoses and even exhaust/blower hoses/pipes should be inspected for stiffness, rot and leaks. Make sure exhaust/blower hoses are connected tightly - double up on clamps if necessary.

○ **Electrical Connections:** inspect as many electrical connections that you can for cleanliness and tightness. Corrosion is often a sign that your connection may not be a good one, especially on battery cables. It's a good idea to remove the terminals and wire brush them along with the cable ends.

○ **Running / Navigational Lights:** make a quick check to see if all of your running lights are working. Always keep spare navigational bulbs on board just in case

○ **Emergency Lights:** your emergency lights and signal devices should be inspected and make sure you have new batteries.

○ **Ignition Kill Switch:** check to see if your kill switch is working properly.

○ **Bilge Pumps:** check for leaks and for float switch operation as well as corrosion.

○ **Ropes and Lines:** have a quick look at your lines - make sure they are not damaged, chafed or deteriorating, and replace as necessary. Keep lines untangled and coiled for ease of use. Check the most important one on board, the anchor line. Regardless how long, pay it out and inspect thoroughly.

## Delhigh Power Squadron Graduates 15 in America's Boating Class

Delhigh Power Squadron is a division of the United States Power Squadrons and is comprised of men and women from the Greater Lehigh Valley and Northern New Jersey areas. The Squadron's primary mission is to promote safe boating through educational courses and public events. Boaters at every level are invited to enroll in the courses, become members, and participate in Squadron activities.

America's Boating Class is a complete safe boating study program covering the basics of recreational boating. The course is designed for boaters using all types of watercraft. The course material covers:

- Boat Education: General information about boats and personal watercraft, and their maintenance
- Boating Safety: How to make your boating safer and more comfortable
- Boating Law and Regulation: Laws and regulations that you must follow

Course was 6 weeks presented at Peter's Marine in Allentown.

Back Row: Bill Kuehner, David Trimble, Kim Karaman, William Bucco, Frank Bucco, Dennis Harbon, Ed Muschlitz - Instructor, Don Dieter Middle Row: Sarah Kuehner, Michael Margron, Kathy Trimble, Marilyn Ludwig Front Row: Matt Kuehner, Randy Tigar, Caroline Trimble, Liz Trimble Sitting: Brendan Morrow, Instructor
